“Human Trafficking: Dispelling Myths and Facing Reality”

The prevalence of human trafficking has reached alarming levels in the United States. To address this widespread crisis, individuals licensed or registered by the Michigan Department of Licensing and Regulatory Affairs (LARA); e.g., physicians, nurses, social workers, pharmacists, and professional counselors all have a new continuing educational requirement which must be met when seeking initial or renewal of an individual’s licensure or registration.

Learning Objectives:
This presentation will help attendees meet the requirement of licensing in the State of Michigan through:
1. Understanding the types and venues of human trafficking in Michigan and the United States.
2. Identifying victims of human trafficking in health care settings.
3. Identifying the warning signs of human trafficking in health care settings for adults and minors.
4. Identifying resources for reporting when suspecting a child is a victim of human trafficking.
5. Dispelling myths, unlearning, and relearning together throughout this talk
